CISCE/Circular/2026-27/35

May 13, 2026

To: All Heads of CISCE Affiliated Schools

Subject: Sixth Edition of CISCE Inspire Series on “STEAM Education: Building a culture of Research, Innovation and Entrepreneurship in CISCE Schools”

Dear Principal,

The Council for the Indian School Certificate Examinations is pleased to announce the sixth edition of its outreach webinar series **CISCE Inspire** on the topic, “**STEAM Education: Building a culture of Research, Innovation and Entrepreneurship in CISCE Schools**” on **19th May 2026** from **10.30 am to 11.45 am**.

In today's rapidly evolving, AI-driven world, success is no longer defined by knowledge alone, but by the ability to think critically, solve problems, innovate, and conduct meaningful research. The National Education Policy 2020 strongly emphasizes these capabilities. However, schools often lack a practical, scalable roadmap to implement research and innovation effectively. In its sixth edition, the CISCE Inspire webinar aims to highlight the need for building a culture of research, innovation and entrepreneurship through STEAM domains in CISCE schools. The discussions would focus on the relevance of fostering research and innovation skills in students, the role of schools in developing this mindset, the processes involved to nurture research and creativity in STEAM domains at the school level and the impact of a structured innovation and entrepreneurship program on future learning pathways of the students.

The panel for this webinar will include the Indian American Aerospace Scientist Mr. Mirza Faizan, acclaimed for developing the Ground Reality Information Processing System (GRIPS) and a serial innovator with 47 patents in the US and worldwide on 18 different domains. We are hopeful that the insights shared during the webinar would stimulate planning and implementation of structured research, innovation and entrepreneurship programmes in CISCE schools.

It is requested that all heads of schools encourage their respective faculty, students and parents to participate in the discussion through the given YouTube channel.

For the wider participation of all CISCE-affiliated schools, the webinar will be live-streamed on CISCE's official YouTube channel: www.youtube.com/@CISCEDELHI

With warm regards,

Yours sincerely,

Dr. Joseph Emmanuel
Chief Executive & Secretary
